Matching opportunities utilizing artificial intelligence

The CTI platform of FRL Group links commodity traders with producers, refiners, buyers, and sellers using its artificial intelligence and algorithms. This is a free service and the program works without human action or interference. The algorithm is fed with the data of your form submission and utilizes its logical and mathematical approach to generate the desired result. This is why relevant data has to be provided to deliver one or more absolutely matching outputs. The algorithm considers a wide range of facts and with this your input and your answers to the questions raised in our forms determine the output. Your input remains in our system until a match is achieved.

If you wish to be linked to the seller of the commodity that you seek at the terms that match your buying ideas, or if you want to sell at the best possible market price, then there is no easier way but to make use of this free service of the commodity trading online platform. Applying artificial intelligence, the CTI platform acts as the best Broker and Facilitator for buyers and sellers of all major commodities and is dedicated to providing top-quality services to all users at no cost at all.

The platform is structured to provide services with great integrity and uncompromising ethical standards. There is a process in place to extensively scrutinise and investigate users to automatically weed out fake buyers and sellers to enable safe and smooth transactions for all parties. This publishing service is available free of charge and the service is provided exclusively on the basis of the latest version of our DISCLAIMER that you will find on our website.
