Matching opportunities utilizing artificial intelligence

The CTI platform of FRL Group links commodity traders with producers, refiners, buyers, and sellers using its artificial intelligence and algorithms. This is a free service and the program works without human action or interference. The algorithm is fed with the data of your form submission and utilizes its logical and mathematical approach to generate the desired result. This is why relevant data has to be provided to deliver one or more absolutely matching outputs. The algorithm considers a wide range of facts and with this your input and your answers to the questions raised in our forms determine the output. Your input remains in our system until a match is achieved.
